

MARKET CONSULTATION SOLACTIVE CHINA CLOUD COMPUTING INDEX

08 June 2020

Content of the Market Consultation

Solactive AG has decided to conduct a Market Consultation with regard to changing the Index Methodology of the following Indices (the 'Affected Indices'):

NAME	RIC	ISIN
Solactive China Cloud Computing Index PR	.SOLCCCP	DE000SLA7232
Solactive China Cloud Computing Index NTR	.SOLCCCN	DE000SLA7240
Solactive China Cloud Computing Index TR	.SOLCCCT	DE000SLA7257

Rationale for Market Consultation

The Affected Indices provide exposure to Chinese companies that are active in the field of cloud computing. Due to the current market conditions, Solactive propose changes in the selection methodology to diversify the index and make it less concentrated in few constituents.

Proposed Changes to the Index Guideline

The following Methodology changes are proposed in the following points of the Index Guideline (ordered in accordance with the numbering of the affected sections):

1. Section 1.5 Weighting: Increasing the weight cap from 6% to 9% to limit the excessive overweighting in smaller companies

Old Version:

On each Selection Day, the components of the Index are weighted according to Free Float Market Capitalization such that the weight of the company does not exceed 6%.

New Version:

On each Selection Day, the components of the Index are weighted according to Free Float Market Capitalization such that the weight of the company does not exceed 9%.

[...]

2. Section 2.1 Selection of the Index Components: Increasing the number of constituents from 20 to 30

Old Version:

The initial composition of the Index as well as any ongoing adjustment is based on the following rules:

On the Selection Days, Solactive determines the securities that are eligible for inclusion in the Index Universe as defined in Section 4. The securities are selected for index inclusion based on the following rules:

- a) Top 15 by total market capitalization rank are selected for index inclusion
- b) Existing constituents with rank from 16 to 25 are selected for index inclusion until the target constituent count of 20 is reached
- c) If there are less than 20 stocks after step b, non-constituents are selected with rank from 16 to 25 until the target constituent count of 20 is reached

New Version:

The initial composition of the Index as well as any ongoing adjustment is based on the following rules:

On the Selection Days, Solactive determines the securities that are eligible for inclusion in the Index Universe as defined in Section 4. The securities are selected for index inclusion based on the following rules:

- a) Top 30 by total market capitalization rank are selected for index inclusion
- b) Existing constituents with rank from 20 to 40 are selected for index inclusion until the target constituent count of 30 is reached
- c) If there are less than 30 stocks after step b, non-constituents are selected with rank from 20 to 40 until the target constituent count of 30 is reached

3. Section 4 Definitions: Introduction of 6 months minimum listing history to avoid companies without sufficient trading history

- Index Universe
