

MARKET CONSULTATION SOLACTIVE MONGOLIA PERFORMANCE INDEX

22 February 2021

Content of the Market Consultation

Solactive AG has decided to conduct a Market Consultation with regard to changing the Index Methodology of the following index (the 'Index'):

NAME	RIC	ISIN
Solactive Mongolia Performance Index	.MOLEX	DE000SLA0MX0

Rationale for Market Consultation

Solactive AG deems the current Index Methodology regarding the weighting scheme no more applicable. The weighting scheme of the Index sets a cap for any Index Constituent at fifteen percent (15%). Since the current number of Index Constituents has eased to only four (4) Index Constituents and since a change in trend is not expected in the near future, the weight capping mechanism of the current Index Methodology is no more appropriate. The Index Methodology needs to be reviewed in order to underpin the Index rebalancing with an adequate and more robust weighting approach.

Proposed Change to the Index Guideline

The following Methodology change proposed in the following point of the Index Guideline (ordered in accordance with the numbering of the affected sections):

Section 1.5: Weighting

Due to the switch to the current standard format of the Index Guideline, section "1.5 Weighting" will be included in section 2 and to be found under section "2.3. WEIGHTING OF THE INDEX COMPONENTS".

From (old version in section 1.5):

"On each Adjustment Day each Index Component of the Solactive Mongolia Index (MOLEX) is weighted proportionally according to its Market Capitalization. The Percentage Weight of each Index Components is capped at 15 percent on the Adjustment Days. The excess weight is allocated proportionally to all Index Components whose Percentage Weight is not capped."

To (new version in section 2.3.):

"INDEX COMPONENTS are weighted equally on the REBALANCE DAY."

Feedback on the Proposed Changes

If you would like to share your thoughts with Solactive, please use this consultation form and provide us with your personal details and those of your organization.
