

MARKET CONSULTATION
SOLACTIVE COMMODITY
COMPOSITE INDEX | CHANGE
IN MAXIMUM NUMBERS OF
SUB-INDICES PER PROVIDER

17 March 2023

Content of the Market Consultation

Solactive AG has decided to conduct a Market Consultation with regard to changing the Index Methodology of the following index (the Index):

NAME	RIC	ISIN
Solactive Commodity Composite Index	.SOLCOMCO	DE000SLA5L21

Rationale for the Market Consultation

The Index is an Index of indices which is comprised of 4 sub-indices provided by external providers.

Currently, up to two sub-indices from each provider are allowed to be part of the index composition. In order to increase the diversification of the index, Solactive has decided to consult the market in order get feedback on the plan to only allow one sub-index per provider. This change shall then become effective for an extra-ordinary selection to take place on 31st March 2023. The rebalancing date (third Wednesday in June 2023) will remain unchanged.

Proposed Change to the Index Guideline

The following Methodology change is proposed in the following point of the Index Guideline:

Section 2.1 (Selection of the Index Components for annual review)

From (old version):

“[...]”

If the provisional composite list already contains 2 indices from the same provider, check whether the provider of the index under inspection is in the provisional composite list.

[...]“

To (new version):

“[...]”

If the provisional composite list already contains 1 index from the same provider, check whether the provider of the index under inspection is in the provisional composite list.

[...].“

Feedback on the proposed changes

If you would like to share your thoughts with Solactive, please use this consultation form and provide us with your personal details and those of your organization.
