Rationale for the Market Consultation

Global exchanges have different trading holidays. These trading holidays can vary and greatly impact the scheduled rebalancing of some of our indices. These delays can often cause issues for end users of our

indices (especially for users who place trades well in advance of a scheduled rebalancing). Specifically, the Tel Aviv stock exchange, with its Friday closures, coupled with several successive holidays where the exchange closes for roughly a week, has resulted in many delays in the rebalancing of the indices above. As a result, Solactive is proposing the following changes.

Proposed Changes to the Index Guideline

The following Methodology changes are proposed in the following points of the Index Guideline [6. Definitions].

From:

"REBALANCE DAY" is the third Friday in January, April, July and October. If that day is not a TRADING DAY the REBALANCE DAY will be the immediately following TRADING DAY.

To:

"REBALANCE DAY" is the third Friday in January, April, July and October. If that day is not an ELIGIBLE REBALANCE DAY, the REBALANCE DAY will be the immediately following ELIGIBLE REBALANCE DAY.

"ELIGIBLE REBALANCE DAY" is each day that is a TRADING DAY on the New York Stock Exchange (NYSE), NASDAQ, Toronto Stock Exchange (TSX) or London Stock Exchange (LSE).
