

MARKET CONSULTATION JULIUS BAER NEXT GENERATION CLOUD COMPUTING AND AI INDEX

21 August 2019

Content of the Market Consultation

Solactive AG has decided to conduct a Market Consultation with regard to changing the Index Methodology of the following Index (the 'Index'):

NAME	RIC	ISIN
Julius Baer Next Generation Cloud Computing and AI Index NTR	.JBNGCCN	DE000SLOCJS3
Julius Baer Next Generation Cloud Computing and AI Index PR	.JBNGCCP	DE000SLOB3X8
Julius Baer Next Generation Cloud Computing and AI Index TR	.JBNGCCT	DE000SLOCJT1

Rationale for the Market Consultation

The underlying thematic universe have grown significantly since we initially defined the number of constituents to be 25. However, with only 25 constituents, we cannot ensure the necessary diversification of the index as the concentration in some sub-segments would be too strong. Furthermore, with only 25 constituents we struggle to fully represent the thematic universe in these indexes. Hence, we see the expansion of the constituents as a needed improvement to this index.

Proposed Change to the Index Guideline

The following Methodology change is proposed in the following point of the Index Guideline

- Section 2.2 SELECTION OF THE INDEX COMPONENTS

Old:

"[...]

- > The 25 highest ranking stocks are selected for the final INDEX

[...]"

New:

"[...]

- > The 30 highest ranking stocks are selected for the final INDEX

[...]"

Feedback on the proposed changes

If you would like to share your thoughts with Solactive, please use this consultation form and provide us with your personal details and those of your organization.
