

# MARKET CONSULTATION - SOLACTIVE MLP & ENERGY INFRASTRUCTURE INDEX

02 June 2025

## Content of the Market Consultation

Solactive AG has decided to conduct a Market Consultation with regard to changing the Index Methodology of the following Indices (the 'Indices'):

NAME	RIC	ISIN
Solactive MLP & Energy Infrastructure Index	.SOLMLPX	DE000SLA0XX7

### Rationale for the Market Consultation

One of the current Index universe requirements of the Solactive MLP & Energy Infrastructure Index (SOLMLPX) is the "average monthly trading volume of at least 75.000 shares in each of the last six months" for all constituents (Liquidity Criterion) as of Selection Day.

While it is important to ensure sufficient trading volume, the "Average daily traded value in the last three months in USD" already serves as a necessary requirement for this purpose in this index and is also the standard trading volume requirement. The Liquidity Criterion as an additional layer might reduce the starting universe unnecessarily, while the Average Daily Traded Value might be still fulfilled.

Therefore Solactive proposed to remove the Liquidity Criterion from the requirements of the Solactive MLP & Energy Infrastructure Index.

### Proposed Changes to the Index Guideline

The following Methodology changes are proposed in the following points of the Index Guideline:

#### 2.1. INDEX UNIVERSE REQUIREMENTS

##### **Removing:**

7) Average monthly trading volume of at least 75,000 shares in each of the last six months ("LIQUIDITY CRITERION")

Feedback on the proposed changes
