Content of the Market Consultation

Solactive AG has decided to conduct a Market Consultation with regard to changing the Index Methodology of the following Indices (the 'Indices'):

NAME	RIC	ISIN
GPR Global 100 Index PR	.GPR100PI	DE000SLA2XG8
GPR Global 100 Index NTR	.GPR100NI	DE000SL0KPN4
GPR Global 100 Index GTR	.GPR100GI	DE000SLA2XH6

Rationale for the Market Consultation

We have observed that some relatively "exotic" exchanges are currently included in the universe of the affected indices. Certain of these exchanges are difficult and/or costly to trade on.

To address this, and to ensure that such exchanges are excluded from the selection process of the affected indices, we propose to include a List of Eligible Exchanges in the index guidelines.

Please note that, both in the current and in all historical selections of the affected indices, no companies have ever been included from these exchanges. As such, this clarification is intended to formalize existing practice rather than introduce a change in index composition.

Proposed Changes to the Index Guideline

The following Methodology changes are proposed in the following points of the Index Guideline [(ordered in accordance with the numbering of the affected sections)]:

Section 2.2

From

The INDEX includes 40 property stocks classified to the Americas region, 30 property stocks classified to the Asia Pacific region and 30 property stocks classified to the EMEA region. The underlying regional diversifications include the property stocks with the highest AVERAGE DAILY VALUE TRADED over the previous twelve months.
