ESG Factors Applied in the Benchmark Methodology

List of environmental factors considered	> Not applicable
List of social factors considered	> Not applicable
List of governance factors considered	> Only companies providing good employee health and safety management are eligible for inclusion in the index. Vigeo Eiris assesses the company's commitment to protect employee's right to have safe working conditions, respecting their physical and mental integrity. The main filters used are absence of HR controversies, health and safety at work, and flexible working opportunities.

Data and Standards used

Data Input	The data used to construct the index is sourced externally from Vigeo Eiris
Verification and quality of data	The provider of ESG-related data input is selected by the Administrator based on an assessment of its existing processes in order to ensure the reliability and representativeness of the ESG-related data. The data provider has established processes in accordance with accepted and established market standards that ensure the permanent quality and reliability of the ESG-data provided
Reference standards	International standards referenced by the index methodology are listed in the respective section above
