

# EXPLANATION OF HOW KEY ELEMENTS OF THE BENCHMARK METHODOLOGY REFLECT ENVIRONMENTAL, SOCIAL, AND GOVERNANCE (ESG) FACTORS

Solactive BrandFinance® Global Brands Index TR

This document provides an explanation of how the key elements of the benchmark methodology reflect ESG factors. It is compiled in accordance with the requirements of point (d) of Article 13 (1) of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 (the "Benchmarks Regulation") and of the Commission Delegated Regulation (EU) 2020/1817.

## General Information

| Name of the benchmark administrator   | Solactive AG                                   |
|---|--|
| Type of benchmark or family of benchmarks   | Equity   |
| Name of the benchmark or family of benchmarks   | Solactive BrandFinance® Global Brands Index TR |
| Does the benchmark methodology for<br>the benchmark or family of benchmarks<br>take into account ESG factors? | Yes  |

# ESG Factors Applied in the Benchmark Methodology

### List of environmental factors considered

- > Exclusion of companies with verified failure to respect established international norms. The core normative framework consists of the Principles of the UN Global Compact.
- > Exclusion of companies with controversies (level 5) in issues such as operations and employee incidents, human rights, business ethics and water use.
- > Exclusion of companies generating revenues (in proportion to their total revenues) >=5% from thermal coal extraction, or >=5% from power generation using thermal coal, or >=5% from thermal coal supporting products or services, or increasing their thermal coal capacity (compared to the immediately preceding selection day), or owning >=50% of another company with involvment in the aforementioned activities.
- > Exclusion of companies generating revenues (in proportion to their total revenues) >=5% from conventional oil and gas generation, or >=5% from conventional oil and gas production, or >=5% from conventional oil and gas supporting products or services, or increasing their conventional oil and gas capacity (compared to the immediately preceding selection day), or owning >=50% of another company with involvment in the aforementioned activities.
- > Exclusion of companies generating revenues (in proportion to their total revenues) >=5% from oil sands extraction, or >=5% from arctic oil and gas exploration/extraction, or >=5% from shale energy extraction, or increasing their unconventional oil and gas capacity (compared to the immediately preceding selection day), or owning >=50% of another company with involvment in the aforementioned activities.
- > Exclusion of companies generating revenues (in proportion to their total revenues) >=5% from nuclear power production, or >=5% from nuclear power generation, or >=5% from nuclear power supporting products, or increasing their nuclear power capacity (compared to the immediately preceding selection day), or owning >=50% of another company with involvment in the aforementioned activities.

# List of social factors considered > Exclusion of companies with verified failure to respect established international norms. The core normative framework consists of the Principles of the UN Global Compact. > Exclusion of companies with controversies (level 5) in issues such as operations and employee incidents, human rights, business ethics and water > Exclusion of companies generating revenues (in proportion to their total revenues) >=5% from production of, or >=5% from services (supplying tobacco related products/services) related to, or >=5% from distribution/retail of tobacco products, or owning >=50% of another company with involvment in the aforementioned activities. > Exclusion of companies generating revenues (in proportion to their total revenues) >=5% from military contracting weapons, or >=5% from military contracting weapons related products or services, or owning >=50% of another company with involvment in the aforementioned activities. > Exclusion of companies with any direct involvement or indirect involvment, through corporate ownership, in controversial weapons (including antipersonnel mines, cluster, biological, chemical and nuclear weapons, depleted uranium, and white phosphorus). Exclusion of companies generating revenues (in proportion to their total revenues) >0% from manufacturing and selling of small arms (including

aforementioned activities.

> Exclusion of companies generating revenues (in proportion to their total revenues) >=5% from operation of gambling, or >=5% from specialized gambling equipment, or >=5% from gambling supporting products or services, or owning >=50% of another company with involvment in the aforementioned activities.

assault weapons) to civilian customers, or >=5% from distribution/retail of small arms (including assault weapons) to civilian customers, or >=5% from manufacturing and selling small arms to military/law enforcement customers, or >=5% from manufacturing and selling key components of small arms, or owning >=50% of another company with involvment in the

> Exclusion of companies generating revenues (in proportion to their total revenues) >=5% from production of, or >=5% from distribution of adult entertainment, or owning >=50% of another company with involvment in the aforementioned activities.

### List of governance factors considered

- > Exclusion of companies with verified failure to respect established international norms. The core normative framework consists of the Principles of the UN Global Compact.
- > Exclusion of companies with controversies (level 5) in issues such as operations and employee incidents, human rights, business ethics and water use.

# Data and Standards used

| Data Input                       | The data used to construct the index is sourced externally from Sustainalytics GmbH  |
|----------------------------------|--|
| Verification and quality of data | The provider of ESG-related data input is selected by the Administrator based on an assessment of its existing processes in order to ensure the reliability and representativeness of the ESG-related data. The data provider has established processes in accordance with accepted and established market standards that ensure the permanent quality and reliability of the ESG-data provided. |
| Reference standards              | International standards referenced by the index methodology are listed in the respective section above.  |
| Information updated on           | 23/02/2024   |
| Reason for update:               | Initial document creation.   |
