The core normative framework consists of the Principles of the UN Global Compact and the OECD Guidelines for Multinational Enterprises.> Exclusion of companies with verified ongoing involvement in the area of controversial weapons (including chemical, biological and nuclear weapons (both under and outside the Treaty on the Non-Proliferation of Nuclear Weapons), depleted uranium munitions, cluster munitions, and anti-personnel mines).> Exclusion of companies generating revenues (in proportion to their total revenues) $> 0\%$ from Tobacco Cultivation and Production.
List of governance factors considered	<ul style="list-style-type: none">> Exclusion of companies with verified ongoing failure to respect established international norms. The core normative framework consists of the Prin-

principles of the UN Global Compact and the OECD Guidelines for Multinational Enterprises.

Data and Standards used

Data Input	The data used to construct the index is sourced externally from Institutional Shareholder Services
Verification and quality of data	The provider of ESG-related data input is selected by the Administrator based on an assessment of its existing processes in order to ensure the reliability and representativeness of the ESG-related data. The data provider has established processes in accordance with accepted and established market standards that ensure the permanent quality and reliability of the ESG-data provided.
Reference standards	International standards referenced by the index methodology are listed in the respective section above.
Information updated on	22/11/2024
Reason for update:	Initial document creation.
