## Solactive ISS ESG Sustainability Eurozone 30 Index PR

### DESCRIPTION

The Solactive ISS ESG Sustainability Eurozone 30 Index aims to track the price movements of Developed Markets Eurozone securities that fulfill ambitious absolute ESG performance requirements. These companies, categorized as "Prime" by ISS ESG, the responsible investment arm of Institutional Shareholder Services (ISS), achieve or exceed the sector-specific performance requirements defined by ISS based on the ESG risk exposure and impact of their respective business model and value chain (absolute best-in-class approach). In addition, only companies operating in accordance with market standards on ESG controversy screens are eligible for inclusion. Those standards are based on established norms such as the United Nations Global Compact and the exclusion of involvement in defined activities. The indices aim to cover current and future regulation on ESG investments. The index is calculated as a PR version in EUR.
