## Solactive Multi Asset Sustainable Index

### DESCRIPTION

The Solactive Multi-Asset Sustainable Index aims to track the price movements of a portfolio consisting of an Equity securities and a Bond securities basket. The Equity basket consists of high dividend and low volatility, Developed Markets Equity securities including only companies operating in accordance with market standards for responsible business conduct (Norms-Based Research), that do not derive revenue at specified thresholds from indicated industries (Sector-Based Screening), and that do not receive a negative aggregate score from an assessment of revenue derived from products or services obstructing the Sustainable Development Goals (SDG Solutions Assessment). The Bond basket consists of securities that do not violate the Sustainable Development Goals (SDG). The index is calculated as a PR version in EUR.
