SuperTech Index

DESCRIPTION

Technology has been the principal growth driver across a wide range of industries, but there are a select group of companies that have either accelerated innovation or have been its primary beneficiaries. The SuperTech index tracks the performance of these companies that are among the largest and most liquid US-listed stocks. The SuperTech index represents companies engaged in high-growth technology, media, and manufacturing industries that focus on providing internet-enabled, electronic devices or services to consumers.

Each index constituent must be classified as an “Internet Company,” a “Semiconductor Manufacturer,” an “Electric Vehicle Manufacturer”, or a “Consumer Electronics Company” as determined by Prime Indexes, based on the Index Constituent Issuer’s regulatory filings, website content, and other related material.
