Solactive Whitney U.S. Critical Technologies Index CNTR

DESCRIPTION

The Solactive Whitney U.S. Critical Technologies Index intends to track companies that support critical emerging technologies across the U.S. and its allies. Companies are selected based on affiliation with the modernization priorities and their geostrategic risk rating score. The industry affiliation maps designated technology priorities to granular industry classifications, and the geostrategic risk rating score measures entanglement in risky countries, as designated by the U.S. government. The result is a diversified constituent list who align to U.S. modernization priorities with minimized geopolitical risk from sanctions, trade, and conflict.
